Yamaha Highlights Solutions for Entertainment and Enterprise at ISE 2020

Yamaha is highlighting its support for both the entertainment and enterprise markets with its range of high end, integrated solutions at ISE 2020 in Amsterdam. These include new products from both the pro audio and Unified Communications ranges, showcasing the close relationship between the respective technologies.

Exhibiting at Booth 3-C95, Yamaha is launching the new, three-model SWR2310 series of switches, which are designed to provide additional high quality options for Dante systems at larger events and venues. Also new are the Unified Communications YVC-330 conference phone and CS-700 video sound bar, which make enterprise communication faster and more reliable, thanks to design and technology which delivers exceptional voice quality and ease of use.

Yamaha's industry-leading digital mixing systems are on show at ISE, including RIVAGE PM and the latest V5.5 firmware for CL/QL series digital mixers, which supports ProVisionaire Control/Touch. The latest Version 3.6.0 enables complete control over the entire network chain, from mixers through to amplifiers (including Yamaha's PC Series and the NEXO NXAMP4X4MK2), processors and speakers.

The new white models of the flagship DZR/CZR series loudspeakers and DXS XLF/CXS XLF subwoofers are also on show. All powered DZR/DXS XLF and passive CZR/CXS XLF models are available in the new finish, the passive models perfectly matched with Yamaha's all-new PC series amplifiers to deliver very high power-handling and focused, professional sound.

Yamaha will also be highlighting education at ISE, with a variety of training sessions from its wide-ranging Audioversity programme available on the stand. These will cover a variety of topics, including overviews of the RIVAGE PM systems, hands-on with CL/QL consoles, integrated AV control using ProVisionaire software and more.

The company is also presenting two in the series of AVIXA Flashtracks short seminars at the Flashtracks stand 13-N110. At 12 noon on Thursday 13 February, Holger Stoltze, senior director of technical sales and marketing at Yamaha Unified communications presents AI Is Improving The UC Experience.

Meanwhile Andy Cooper. pro audio application engineering manager at Yamaha Music Europe asks the question AV Networks: Which Topology Works Best? at 11.30am on Friday 14.

Yamaha is exhibiting on Booth 3-C95 at ISE 2020, which takes place at the Amsterdam RAI from 11-14 February.
