

Biamp Introduces Premium Surface Mount Desono Loudspeaker Series

High-Performance Surface Mount Loudspeakers Excel in Music and Speech Reproduction in Indoor and Outdoor Applications, Enhanced with Time-Saving Installation Features

Biamp today introduced the Desono EX Series, a sleek, modern line of high-quality, high-performance surface mount loudspeakers for high-fidelity music or speech reinforcement. Designed for indoor and outdoor use with time-saving installation features, the Desono EX Series includes 6.5-inch, 8-inch, and 10-inch two-way coaxial loudspeakers as well as a 10-inch subwoofer. All full-range models include 70V/100V transformers and low-impedance inputs.

"As our premium entry into the business audio category, the Desono EX Series delivers high-quality audio in a modern, aesthetically pleasing design that is ideal for indoor or outdoor applications where music is vital to the overall experience," said Joe Andrulis, Executive Vice President of Corporate Development, Biamp. "The Desono EX Series won't only be prized by listeners but also by designers and integrators who will appreciate its striking appearance, musicality, voice intelligibility, coverage consistency, and mounting flexibility."

Biamp's Desono EX Series surface-mount loudspeakers provide excellent acoustic performance, uniform coverage, and elegant aesthetics for a diverse range of distributed indoor and outdoor applications, including presentation spaces, restaurants, hotels, bars, multi-purpose spaces, and themed entertainment and sports facilities. The Desono EX Series is UL1480A-certified in the USA, CSA 62368-1-certified in Canada, and EN54-24-certified for emergency use in the EU.

The smallest member of the new series, the Desono EX-S6, a 6.5-inch, two-way surface-mount loudspeaker, is ideal for providing discrete, distributed sound in applications requiring exceptional audio clarity with a small footprint. The Desono EX-S8 is an 8-inch, two-way surface mount loudspeaker that provides detailed voicing with projection. It is an excellent fill or distributed loudspeaker for systems where pristine voice clarity is desired. The 10-inch Desono EX-S10 provides excellent musicality with deep LF extension. It's perfectly suited for front of house in small venues or used in distributed applications without subs. Finally, the 10-inch Desono EX-10SUB subwoofer provides additional deep base to the EX-S6 or EX-S8 systems for full-range, foreground music playback.

Each of the models installs quickly and easily with two flexible mount options, the ClickMount Pan-Tilt Bracket or the indexing ClickMount U-Bracket, which allow mounting in virtually any location or orientation. Both mount options reduce installation time and are theft- and tamper-resistant.
