

Apogee And Eventide Cooperation

Apogee and Eventide will cooperate in the second half of 2018 in a special promotional campaign. Upon purchase of a qualifying Apogee product and after successful registration, customers will receive 6 months of free access to the extensive Eventide Ensemble plug-in package. The ensemble plug-in package currently includes 23 high-quality plug-ins in the well-known Eventide quality. All subscribers will also receive any new plug-ins at no additional cost, which Eventide publishes and adds to the Ensemble Bundle during that period.

The following Apogee products qualify for participation after new purchase

- Apogee Element 24
- Apogee Element 46
- Apogee Element 88
- Apogee Ensemble Thunderbolt

Customer purchases any Apogee Element Interface or Apogee Ensemble Thunderbolt from a participating merchant between 10th July 2018 and 10th January 2019. The customer then registers their product on the Apogee website using their proof of purchase and serial number and signs up to receive the promotion code. Finally, the customer creates an account on gobbler.com or logs into their existing account, where a code immediately gives them access to the Eventide Ensemble software package.
