Audified introduces intuitive new plug-in product line with one-knob VocalMint Saturator valve saturation shaper

Software applications, software effects, and hardware processors developer Audified is proud to introduce an all-new intuitive plug-in product line with VocalMint Saturator - an easy-to-use, one-knob valve saturation shaper with vocal- and speech-specialising powerful processing hidden under the hood - as of April 23...

Unlike most one-knob-style plug-ins that only do one thing - think processing a track linearly with a specific effect, Audified's all-new VocalMint Saturator processes a track through its virtual signal chain to tune multiple vocal- and speech-specific parameters simultaneously. As a valve saturation shaper par excellence, it ably achieves this under the hood - and all without interruption to the creative process. After all, valve saturation is not a linear phenomenon and neither is VocalMint Saturator's taper. Indeed, it is intelligently optimised for mixing vocals and speech, so saturates accordingly across the whole range of the knob that dominates a

gorgeous GUI (Graphical User Interface) that is as easy on the eye as it is to use with a menu that can remain closed or opened for easily accessing additional controls, such as a zoom option or dBU/dBFS calibration.

Intuitive in use, anyone can master VocalMint Saturator in a matter of seconds. Saying that, though, there lies a powerful beast below its superficially simplistic surface, saturating whatever track it is applied to while also shaping it using pre-tuned algorithms developed from Audified's considerable collective music production experience. As Audified has helpfully chosen and carefully crafted the whole saturation chain involved, including subtle equalisation… voilá! All the user needs to do is turn the knob and enjoy employing the vocal- and speech-enhancing results on their own music production.

VocalMint Saturator is available to purchase for a time-limited COVID-19 crisis promo price of only $29.00 USD until May 14, 2020 - rising thereafter to $79.00 USD - from Audified's online shop.

VocalMint Saturator can be directly downloaded as an AAX, AU, VST2, VST3 64-bit native plug-in for MacOS (10.9 and above) and an AAX, VST2, VST3 32- and 64-bit native plug-in for Windows (7, 8, and 10) - alongside a demo version - from teh website below. (Note that VocalMint Saturator is serial number-protected, so no iLok is required.)

For more in-depth info, please visit the dedicated VocalMint Saturator webpage.
