

HH electronics M-Series

HH electronics M-Series M-2600D

UK-based HH Electronics has announced the launch of its M-Series high power, 2U rack amplifiers. The Series is designed to provide maximum performance for demanding applications everywhere from bars, restaurants and clubs, to houses of worship, live music and education settings.

HH electronics M-Series M-2600D

There are three models available. The M-750D, M-1500D and M-2600D all draw on HH's five decades of pioneering heritage in the field of amplifier design and development. Designed and engineered in the UK the Series boasts high quality, heavy duty toroidal power supply, robust chassis, ultra reliable linear power stage, and comprehensive protection system.
