

IK Multimedia Total Studio 5 MAX

IK Multimedia releases Total Studio 5 MAX, adding the full Pianoverse piano and sound design instrument, cutting-edge T-RackS 6 mixing and mastering workstation, and ARC 4 room correction. Also included are 9 TONEX Signature Collections, now available in a new TONEX Signature Collections Volume 1 bundle. This even more comprehensive music production suite provides users access to IK's full expanded catalog of effects processors and virtual instruments, offering significant savings compared to purchasing each software title individually.

Total Studio 5 MAX is a complete production suite, with everything needed to bring musical visions to life. This new edition delivers instant inspiration across every genre and workflow, backed by a wide range of virtual instruments, studio-grade effects, mixing and mastering tools, and an unparalleled collection of guitar and bass gear.

What's Included

- Over 160 of IK's award-winning music creation titles
- 72 plug-ins covering the entire creative process
- Over 16,000 authentic-sounding instruments
- Over 2,000 creative and studio effects
- Thousands of presets from top artists & engineers

What's New

- Pianoverse, with its 9 pianos and 33 cinematic spaces
- The full version of TONEX + 9 Signature Collections
- AmpliTube Morley Collection with 3 classic stompbox FX
- T-RackS 6's streamlined workflow and 10 new processors
- ARC 4, boasting faster calibration and stunningly natural results

The world of expressive piano just became even more inspiring. Total Studio 5 now features Pianoverse, which includes 9 meticulously captured pianos that blend world-class realism with cutting-edge creative features. From ultra-dynamic concert grands to bold cinematic textures, Pianoverse delivers stunning acoustic detail and powerful sound-shaping options, such as customizable spaces and layering. Additional titles include Hammond B-3X, MODO BASS & DRUM, SampleTank 4, and more, providing over 16,000 instrument sounds.

Total Studio 5 MAX amplifies your tone arsenal with all the gear available for AmpliTube 5, including AmpliTube Morley, featuring its 3 groundbreaking stompbox effects alongside over 400 gear models. Users will enjoy the seamless integration of TONEX, which includes TONEX Signature Collections Volume 1 and over 1,200 Premium Tone Models, unlocking an ever-growing universe of AI-modeled gear sourced from real amps and pedals. Whether it's vintage warmth, modern crunch, or experimental textures, Total Studio 5 is ready to rock.

Total Studio 5 MAX brings the latest in IK's pro audio FX, including the acclaimed T-RackS 6 with 62 modules, offering everything from subtle polish to complete transformation. Users will gain access to new mastering-grade plug-ins, updated processing tools, and unique creative effects tailored for sound designers and producers alike. This includes new favorites like Bass ONE, Master Match X, and Lurssen Mastering EQ - all designed to fit seamlessly into the workflow. Additionally, there's the Lurssen Mastering Console and ARC 4. Top engineers trust these tools, which come loaded with artist presets to help produce broadcast-ready mixes more efficiently.

For the first time, Total Studio features 9 TONEX Signature Collections, offering an incredible selection of rare and sought-after amps and pedals. This collection is also available separately. Captured with TONEX at the highest quality, top engineers and artists have meticulously fine-tuned each of the 413 Tone Models to achieve a specific sweet spot. Adjust them as desired and add effects in TONEX to create new, inspiring presets for the stage and studio.
