Arturia AudioFuse Studio Rev2

AudioFuse Studio Rev2 is here. Combining a premium desktop design and four optimized DiscretePRO preamps with a complete suite of creative plugins, AudioFuse Studio Rev2 delivers more headroom, an extended gain range, and pristine 24-bit/192kHz conversion, keeping every part of your studio connected, monitored, and ready to record. An updated Bluetooth module adds to the pristine conversion and extensive connectivity that define AudioFuse Studio. The result is an all-in-one hub for any professional recording studio.

Alongside the launch, AudioFuse Control Center 2.5.0 is available now as a free update for all AudioFuse devices, introducing preset import and export.
